

Classroom Wish List

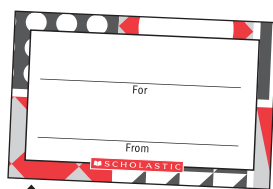

More Books, More Reading

Books that make them laugh. Books that let them use their imagination. Books that open a world of possible. The Classroom Wish List is the best way to ensure your students have constant access to books they want to read. This program is an excellent way for families to encourage their child to read more and to fill their child's classroom library with the best in children's literature.

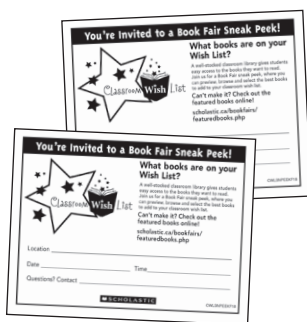

Five easy steps to grant wishes:

1. Invite the teachers to a Book Fair Preview before the event. Use the Sneak Peek Invitations in this package or invite them by email. Be sure to include the Book Wishes Reproducible (available in this package or online) and encourage teachers to complete the form even if they cannot attend.
2. At your Preview, ask teachers to select books for their classrooms. Teachers should complete the Book Wishes Reproducible and return it to you. Please post these lists in your designated Classroom Wish List display area.
3. Ask your volunteers to create a Wish List display area in a prominent spot in your Fair. At the centre of your display, please include the Wish List Poster found in this kit. Deck out your display by using Book Fair theme ideas to make it an eye-popping focal point.
4. During your Fair, draw customers' attention to the Wish List display so they can view their child's Classroom Wish List. Once they've purchased the titles they'd like to donate, you can adhere a Bookplate to the book(s).
5. Deliver each teacher's Classroom Wish Books at the completion of your Fair or have your Student Crew do that for you!

Speak to your Book Fair Consultant or visit us online at scholastic.ca/bookfairs/programs for more detailed information and reproducibles.

Book Wishes
Reproducible

Teachers can make photocopies of their Book Wishes and pass them out with the Book Fair Highlights flyer. This is a great way for parents who cannot attend the Fair to participate in the program.
