About This Book

Seifer Tombchewwe awakes with a throbbing headache. It is as if someone hit him over the head with a baseball bat! As his blurred vision begins to clear he realizes he has no idea where he is and he doesn't recognize anyone standing around him. Seifer has been kidnapped. Why?

Because, Prince Talon has gone missing and in order to unify the country from pending war. Seifer is forced to impersonate him. It is his sworn duty. He is suddenly responsible for filling the roles of diplomat, warrior, and Lord Defender of the Realm with no formal training. He must convince the royal family, the kingdom's people, and his enemies, that he is, in fact, Prince Talon. The task however, proves to be harder than Seifer could have ever imagined.

This magical world needs a brave leader, a warrior. Can Seifer become the Prince that he needs to be?
