## About This Book

Mika and Ellie are mutant twins. They can do things that the others just can't comprehend. They know when people are lying. And there is no point in trying to conceal your emotions around a mutant child either, because they see right through you.

The twins are forced to cooperate with the tyrant Mal Gorman's maniacal plan in order to break free from the brainwashed, microchipped child soldiers army he created. Gorman wants world domination and he knows the telepathic twins are the key to his success. He wants the twins to steal the special age-reversing serum he seeks from the wild side of The Wall so he can remain young forever.

Mika and Ellie read all of his dangerous thoughts while pretending to be on his side. They are more disturbed, however, with what else they can hear: The Whisper...the faint beckonings of fellow soldiers. They want the twins to lead their elite squadron of mutants in a revolt that could possibly save the world — or send it further into chaos and destruction with yet another war.
