

Clifford

THE BIG RED DOG™

A Clifford™ Craft

Paper Bag Pumpkins!

This activity gives children an opportunity to use their creativity to recycle paper bags into Halloween pumpkins.

What you'll need:

- Paper bags of all different sizes
- Newspaper
- Washable paint
- String OR green pipe cleaners

Spread newspaper on the floor or table to protect the area from paint. Choose a paper bag for your first pumpkin. Crumple up newspaper and fill up the paper bag. Once you have a nice round shape, tie the bag at the top with the string leaving enough bag at the end to paint as the pumpkin stem. Try using green pipe cleaners for leaves! Next, paint your pumpkin and be creative. Spooky faces, happy faces... you decide! Once the paint is dry you're ready to set your pumpkin on the steps or a window sill for everyone to see.
