

## REMEMBRANCE DAY ACTIVITY

**Add a personal touch to your Remembrance Day discussions with this simple hands-on craft.**

- 1 Have students trace their hands on green construction paper four times.
- 2 Cut out the hands, and join the pieces together at the wrists with glue.
- 3 Make copies of the large poppy template and glue it to the centre of the hands.

Create a special Remembrance Day bulletin board by arranging your students' hand cut-outs into one giant wreath. Arrange poppies (from the template) around the wreath. To take this simple craft a step further, ask your students what Remembrance Day means to them and have them write their thoughts on the hand pieces.
