In the Shadows

By Kiersten White

Art & Art Story by Jim Di Bartolo

This is a stunning new masterpiece that blends text and illustrations to pull us into a unique story told over time, through time and into the future. It's an imaginative "hybrid weirdo of a book" that is as much of a mystery as it is a love story and a thrilling fantasy. Over the course of a summer, five young people experience things they cannot explain, in a small town where strange and mysterious things occur. What they think is going on and what is really happening is only truly revealed near the end of the story. The author skillfully wraps the text around the illustrations which come together into an ending the reader could only hope for.
