Spirit Animals Book Two: Hunted

By Maggie Stiefvater

Maggie Stiefvater picks up the story where Brandon Mull left off in this exciting middle-grade, multi-platform series. The four children head to the forests of Eura, on the hunt for another Great Beast. Conor's excitement over returning to his home in Eura turns to dismay when he and his friends are betrayed by someone very familiar to him. This series has it all: action, adventure, role-play in the gaming component, and more!

Ages 8-12

“I said in my review of the first book that I couldn't wait for the second – and book two did not disappoint! That is why I love this series! Now bring on *Book Three: Blood Ties* (coming in April 2014)!”
