## Books We Love This Month

### **Bugs in My Hair!**

*By David Shannon*

This book will make you squirm, itch and laugh all at the same time! David Shannon's fantastic illustrations are peppered with fun, nitpicking facts about this common situation and takes the sting and stigma out of dealing with these lousy little creatures. We get to experience the entire process from the arrival of the little devils – “it’s a Lice-a-Palooza!” – to when the party is finally over. This will become a much loved read-aloud classic even if the subject matter ‘bugs’ you!

**Ages 4-8**

“I loved this book because it does double duty, both finding the humour in the situation and reassuring the reader about just how common it is.”

— Susan
