## Forevermore

By *Cindy Miles*

Ivy Calhoun has moved to a real castle in the mystical lands of Scotland with her mom and new stepfather. There, she meets the handsome Logan, a ghost around her age with a mysterious past. As Ivy begins to see more ghostly and more dangerous apparitions, she begins to wonder if Logan is as nice as he seems. For parents who like Diana Gabaldon, this is a great book for both you and your tween or teen.

**“I loved this book because it is the perfect ghost/romance story for a dark and stormy summer night.”**
