

# Book Talk

Books We Love This Month

## Night Light

*By Nicholas Blechman*

This is a fantastic interactive book that's part guessing game and part counting book, and is great for kids who love books about 'anything that goes!' With great graphic appeal, bold colours and die-cuts on every other page, this rhyming story combines high interest preschool subjects with important preschool concepts.

**Ages 3-5**

**"I loved this book because I couldn't guess what was coming on the next pages!"**
