## **The Magnificent Tree**

*By Nick Bland  
Illustrated by Stephen  
Michael King*

*The Magnificent Tree* is a delightful exploration of opposites and acceptance. Bonny and Pop are full of ideas to help keep the birds nearby — brave and clever ideas. But Bonny's plan to plant a tree is very different from Pop's plan to build a mechanical tree. Each idea works in its own way — and in the end, Pop and Bonny admire each other's creations, while enjoying the birds' company.

**Ages 3-6**

**"I loved this book because the illustrations are so quirky and fanciful, a great companion to Nick Bland's message of working together in despite of our differences."**
