## Train

By Elisha Cooper

Using beautiful watercolour illustrations like those featured in *Farm* and *Beach*, Elisha Cooper brings the sights and sounds of the rails to life in *Train*. Visit the large sprawling mountains, prairie landscapes, grand train stations, and board many different types of trains. *Train* is detailed, unrushed, nostalgic, and very memorable.

Ages 4-8

“I love this book because Elisha Cooper is one of my favourite author and illustrators. Although this book is set in the U.S., the imagery he puts forth seems so very Canadian.”
