## UFiles #1: *A Dark Inheritance*

By *Chris d'Lacey*

I really enjoyed this paranormal mystery from Chris d'Lacey, who also wrote *The Last Dragon Chronicles* series. This is a multiverse in which the protagonist alters realities through his decisions and actions, much to own surprise! It also contains realities that will be easily recognizable to readers: a boy trying to figure out girls — both living and not; getting a girl to help him even though it's a crazy plan; and being grounded. This book is super relatable and heartwarming, but at the same time doesn't veer away from difficult conclusions and what could be seen as an 'unhappy ending' as more of the story is revealed.

**Ages 8-12**

**If you love paranormal adventure stories, you'll love *A Dark Inheritance*!**
