## **The Boy Problem: (Notes and Predictions of Tabitha Reddy)**

*By Kami Kinard*

Even though Tabitha trusts science, she also believes in the power of signs and coincidence. Here she is combining both in an effort to catch the big fish – the elusive boyfriend. And as if this project isn't big enough, there is also all the cupcakes she has to bake for a fundraiser.

**Ages 8-12**

**"I love her voice – alternatively frantic, confident, and confused. It's fun watching her go from one funny problem to the next." — Janet**
