

How Do Air and Water Get Polluted?

All living things use the Earth's air and water over and over again. It is never lost or destroyed. However, it is getting harder and harder to use the Earth's air and water because of **pollution**.

Find causes of pollution.

- 1 Look at the picture.
- 2 How many causes of air pollution can you find.
- 3 How many causes of water pollution can you find.
- 4 What can you do to keep the Earth's air and water clean?

THINK!
How can air
pollution change
the weather?
