08:35 - INCOMING TEXT – HQ

**URGENT!** Telephone intercept has alerted us that foreign agent, Agent NT, will be arriving at Calgary Airport at 8:25 A.M. on 10/18 via changeover at Amsterdam, flying Air Canada, flight number 432. Will be receiving high-tech secrets of national importance, and will meet with unknown contact at an unknown location to receive information.

Agent Cooper, your assignment, AKA Mission Eagle Eye, is:

Constant surveillance of Agent NT until he meets with his contact and transmission of ongoing surveillance reports to HQ.

NOTE: Agent NT is dangerous and armed. Be extremely cautious.

SCHOLASTIC

**08:38 - OUTGOING TEXT – COOPER**

Confirmed.

**08:39 - INCOMING TEXT – HQ**

NOTE: Agent NT is dangerous and armed. Be extremely cautious.

Got it, Agent Cooper?

**08:40 - OUTGOING TEXT – COOPER**

Confirmed.

**08:42 - INCOMING PHOTO – HQ**

1990 photo of Agent NT.

**08:43 - INCOMING TEXT – HQ**

Confirm receipt of photo.

**08:44 - OUTGOING TEXT – COOPER**

*This is Agent NT? Isn't he...?*

**08:45 - INCOMING TEXT – HQ**

Yes, this is Agent NT. And no, contrary to what most agents believe, he did manage to evade capture in Mission Blackout and slip out of the country once again, leaving us with many of our best agents hospitalized and, unfortunately, several in the morgue.

Agent Cooper, because of your recent acceptance into the Canadian secret service, your youth, and your relative inexperience, you are the only agent left in Canada with whom Agent NT is unfamiliar. This is why you have been assigned to this mission.

**08:47 - OUTGOING TEXT – COOPER**

Confirming participation in Mission Eagle Eye. No Problem.

**08:48 - INCOMING TEXT – HQ**

Copy. Resume contact tomorrow.

**Wednesday, October 18** 

**08:45 - OUTGOING TEXT – COOPER**

Urgent request for verification of Agent NT's background info. Please confirm Agent NT is a certified black belt, weapons expert, speaks 7 languages, IT expert, completed 16 successful missions???

**08:46 - INCOMING TEXT – HQ**

Verified. Why? Problem?

**08:47 - OUTGOING TEXT – COOPER**

No. Thought it was 8 languages, not 7.

Agent coming through gate. Agent NT is cleverly disguised—very cleverly disguised—but has been spotted. Blue eyes, white hair. Obviously a wig. Appears to be about 70ish. Met by family who are also very convincing, especially the little boy.

Sending photo.

**09:02 - OUTGOING PHOTO – COOPER**

2011 Agent NT in disguise.

**09:03 - OUTGOING TEXT – COOPER**

Apologies. Please ignore previous transmission. Have now successfully identified Agent NT, who is ... not actually disguised at all.

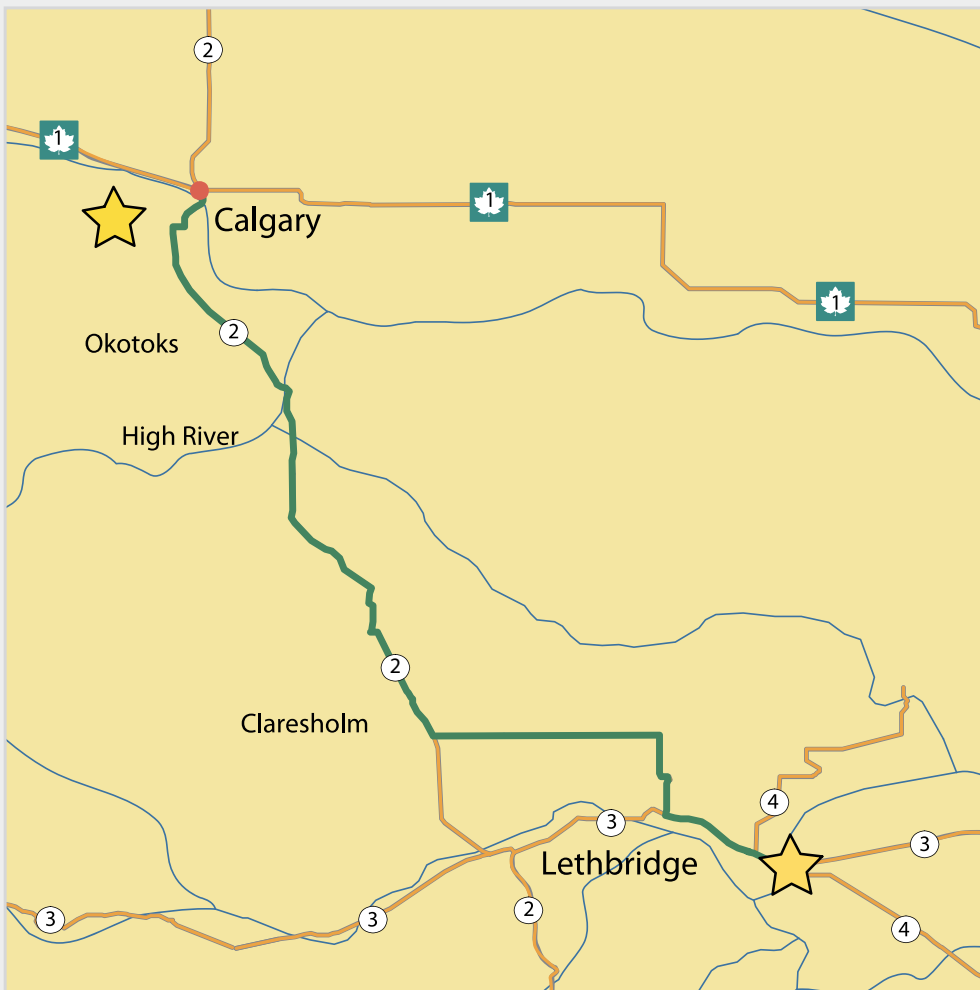

**09:15 - OUTGOING PHOTO – COOPER**

2011 photo of Agent NT.

**11:15 - OUTGOING MAP – COOPER**

Agent NT is travelling south on Highway 2.

**11:36 - INCOMING TEXT – HQ**

Good work. We have visual contact via aerial drone.

**11:41 - INCOMING SATELLITE MAP – HQ**

**12:50 - OUTGOING TEXT – COOPER**

Sending cellphone video record of spies' meeting and exchange of envelopes.

Awaiting further instructions.

**12:57 - OUTGOING VIDEO – COOPER**

### 13:16 - INCOMING TEXT – HQ

Follow Agent NT's contact. Find out name, license plate, place of business. Sending another agent to trail Agent NT.

### 14:27 - INCOMING TEXT – HQ

Agent Cooper, your identity may have been compromised. Agent Hardcastle will be shadowing Agent NT, and Agent Diaz will be shadowing Belinda Smith. We have compiled your journal entries for today. Your role in Mission Eagle Eye is completed.

We need you to come into HQ for a debrief today. Be prepared to go to Argentina tomorrow. We want you to follow a suspect in an art heist. You will be the lead on Mission Van Gogh. Will send a photo of the suspect in disguise.

### 14:30 - INCOMING PHOTO

2011 photo of art-heist suspect.

### 14:31 - OUTGOING TEXT – COOPER

Confirmed. Cooper out.

## Journal

**Wednesday, October 18** 

### JOURNAL: MISSION EAGLE EYE – COOPER

(06:15) Shovelled snow off car. Put in favourite CD. Set off for Calgary airport.

(07:05) Parked in airport parking lot. Paid in advance to allow for quick get-away if necessary.

(07:55) Entered airport. Checked Air Canada board. Agent NT's flight on time. Will arrive in 30 minutes at gate 5. Verified area is secure. Reviewed Agent NT's background info while waiting.

(08:15) Have done another security check of perimeter. Looks clear.

(08:30) Airport display board indicates flight has landed. Passengers disembarking and going through customs. Perimeter still looks secure.

---

(09:45) Trailed Agent NT out to taxi stand at a distance, to avoid detection.

(09:48) Very long line for cabs. Have had to follow Agent NT into line in order to be close enough to plant bug in luggage.

(09:50) Planted bug in luggage.

(10:20) Agent NT leaving cab. Am in my car and am tracking using GPS. Agent NT travelling due south. Am attempting to close the gap.

(10:25) Agent NT travelling south on Deerfoot Trail.

(11:10) Agent NT travelling south on Highway 2. Still trying to close the gap.

---

(11:45) Oh, forgot to mention, was possibly spotted by Agent NT. Accidentally bumped into him while planting the bug at the airport. But no worries. Did not appear to raise any suspicions.

(12:02) Pulled over by RCMP Constable Calder for speeding. Will be submitting my fine as part of my expenses next week. Still trying to close the gap.

(12:21) Cab pulled off highway and into service station. I arrived shortly afterward. Driver got gas. Agent NT left the vehicle and made a call on his cellphone. I intercepted call using laser microphone.

(12:22) AUDIO INTERCEPT:

(12:40) Have reached Lethbridge. Parked several blocks from The Dregs Coffee Shop, on Talbot Road. Quick visit to washroom where changed clothes and added glasses and a wig. Sat at counter, ordered soup, told waiter am waiting for someone.

(12:42) Young woman entered and sat alone at table. Agent NT entered soon afterward and sat with her. (Threw me an odd look. Not sure why, but he wasn't the only one.) Don't think he recognized me from the airport.

(12:46) Took seat at table near them. Began video-recording meeting using cellphone.

---

(13:19) Slight delay. Forced to return to pay for unfinished soup, broken bowl...

(13:24) No worries. Still have visual of Agent NT's contact. She had trouble starting motorcycle. Made a call and is now waiting.

(13:27) Motorcycle license is GH 445.

(13:29) I called CAA as well.

(14:02) CAA fixed motorcycle. Followed contact to office tower at 667 High-Tech Drive.

(14:12) Followed contact inside. Business is WEP-CORE, a high-tech company. Used superior spy techniques (and \$100) to convince reception clerk to provide name of contact: Belinda Smith, software expert.

---
