

Dinosaur Clues

How do we know that dinosaurs were real? It is because their bones have been found in rocks. Sometimes paleontologists have found dinosaur footprints where mud later turned to stone. These kinds of rocks are called fossils. Fossils give us clues about how big the dinosaurs were. Some were small and some were very large. paleontologists say a diplodocus was as big as three school buses!

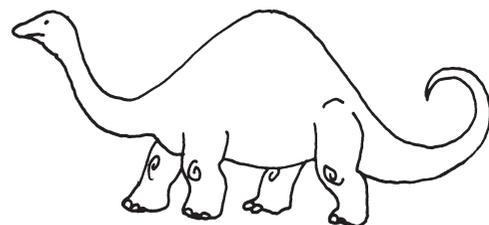

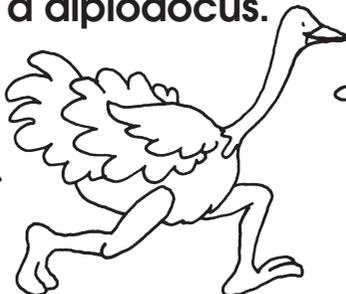

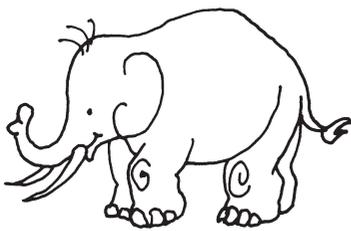

1. Colour the picture of paleontologists working.

2. Colour the picture of a fossil.

3. Colour the picture of a diplodocus.

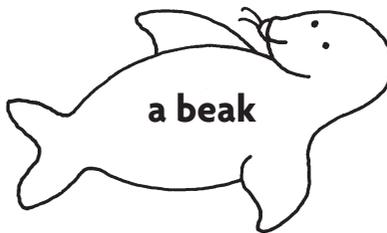

Find and write the names of three more dinosaurs.

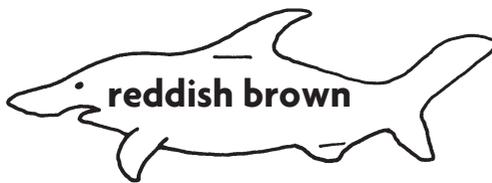

Amazing Animal Facts

Read each sentence. Then colour the picture that tells the meaning of the underlined word.

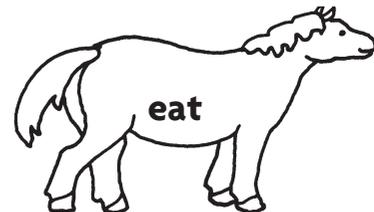

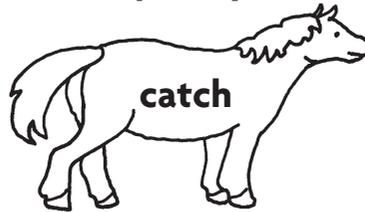

1. Sea lions sleep in the water with one flipper up in the air.

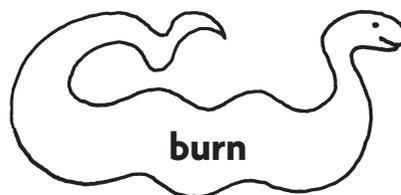

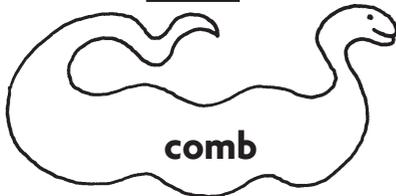

2. Even though whale sharks are the biggest fish in the world, they are harmless to people.

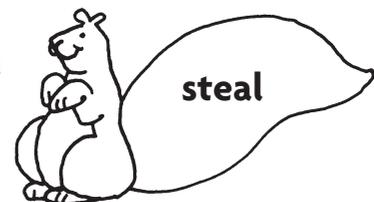

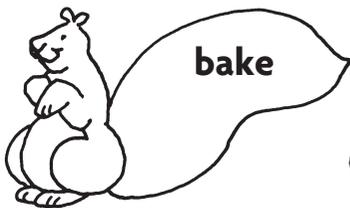

3. Horses use their tails to swat pesky flies.

4. Snakes shed their old skins and grow new ones.

5. Squirrels bury acorns and nuts to eat when winter comes.

Write an interesting fact about two other animals.
