

# Read Aloud Collections

Help your students be math detectives with these collections of engaging and fun math Read Alouds!

These collections of books set a whole-class focus for learning by encouraging discussion of big ideas, provoking math talks, and providing realistic contexts for the math that students can connect with.

Each of these three collections comes with a Teacher's Guide specific to the books in the collection. These Teacher Guides will help create an immersive read aloud experience in the classroom and each Guide includes over 100 pages of comprehensive math and cross-curricular lesson plans.

**Lesson Plans include:**

- ✓ **Before, During and After Reading prompts**
- ✓ **The focus of the First Reading** is to enjoy the story and understand key ideas using comprehension strategies, while the Second Reading focuses on the math so students can discover and explore the math concepts embedded in the story.
- ✓ **Reproducibles** for further discussion and activities
