A reading intervention program that provides targeted, small-group instruction in reading comprehension, word study and phonics, and guided writing

Scholastic RISE is a short-term intervention that provides targeted, small-group instruction in reading comprehension, word study and phonics, and guided writing. Based on Jan Richardson's *The Next Step Forward in Guided Reading*, the RISE framework offers daily instruction for students who are reading six to 36 months below grade-level benchmarks.

This intervention resource provides a highly scaffolded instructional model where students can immediately apply skills learned in **RISE** and **RISE UP** into classroom practice. After six to eight weeks of targeted interventions, students will begin to gain the confidence, proficiency, and skills they need to excel as readers and work towards meeting grade-level expectations.

Jan Richardson, Ph.D., is the best-selling author of *The Next Step Forward in Guided Reading*, an education consultant, and a leading expert in guided reading with experience as a Reading Recovery and classroom teacher.

Ellen Lewis, M.Ed., is a literacy consultant with more than three decades of literacy teaching experience as a Reading Recovery and classroom teacher. She is the author of *The Next Step Forward in Guided Reading Guide* as well as several children's books.
