

Clifford

THE BIG RED DOG™

A Clifford™ Craft

Lion Mask

This activity gives children the opportunity to design and create a scary or friendly lion mask.

What you'll need:

Paper plate

Yarn

Scissors

Glue

Colors

String

Construction paper

Cut pieces of yarn and glue one end of each piece all the way around the paper plate. Make several rows of the lion's mane with yarn. Cut out eye and mouth wholes. Draw facial features with colorful outlines around the eyes and mouth. Use the construction paper (A triangle makes a great lion's nose, ears and scary teeth!) to add special features to your mask. Add whiskers with paper or a marker and practice your growl! Punch holes opposite each other on the edges of plate and attach the string to tie on your mask!
